Aviation safety downgrade a challenge for RP tourism

By Margaret C. Diaz

MANILA (The Philippine Daily Inquirer)

Aviation safety downgrade by the International Air Transport Association (IATA) has become a challenge for the Philippines' tourism industry, which relies heavily on air travel.

The downgrade, which placed the Philippines in the "watch list" category, is a result of concerns over the country's aviation safety record. IATA's downgrade is a reflection of the country's poor performance in the past few years.

Lawmakers see May opening for Naia 3

Oakwood judge won't inhibit himself

THE LEGAL COMMUNITY has been divided on the issue of whether Judge Oscar S. Quinsion Jr. should be allowed to continue his duties as a judge while also serving as a lawmaker in the House of Representatives.

Quinsion, who is currently a judge in the Manila Regional Trial Court, was elected to the House in the recent elections. He is one of the few judges who have been elected to the House.

Some legal experts believe that Quinsion's dual role as a judge and lawmaker could be a conflict of interest. They argue that he should not be allowed to continue his duties as a judge while also serving as a lawmaker.

Others, however, believe that Quinsion's dual role is not a conflict of interest. They argue that he can continue his duties as a judge while also serving as a lawmaker.

Quinsion himself has said that he will not let his duties as a judge inhibit himself. He has said that he will continue to serve as a judge while also serving as a lawmaker.

The issue of whether judges should be allowed to serve as lawmakers has been a long-standing debate in the Philippines. Some people believe that it is a conflict of interest, while others believe that it is not.

Quinsion's decision to continue his duties as a judge while also serving as a lawmaker has been met with mixed reactions. Some people support his decision, while others oppose it.

High rate blamed for low take

ANALYSTS HAVE BLAMED the low take of the new 100-peso banknote on its high face value. They say that the high face value of the note is a major factor in its low circulation.

The new 100-peso banknote was introduced in the Philippines in January 2005. It is the highest denomination of the Philippine peso. The note is made of polymer and is highly secure.

Analysts say that the high face value of the note is a major factor in its low circulation. They say that the note is not being used as much as the lower denomination notes.

Gov L, MNLF set meet with OH,

MANILA (AP) — President Joseph E. Estrada and his cabinet will meet with the National Council for the Peace and Reconciliation (NCPR) on Tuesday to discuss the peace process with the Moro National Liberation Front (MNLF).

The president's office said the meeting will be held at the Malacañan Palace. The NCPR is a body created by the 1996 peace agreement between the government and the MNLF.

The meeting is expected to last for several hours. The president will be accompanied by Vice President Gloria Macapagal Arroyo and other cabinet members.

The MNLF is a separatist group that has been fighting for the independence of Mindanao. The group has been involved in several peace talks with the government over the years.

The latest round of talks began in 1996 and resulted in the signing of a peace agreement. However, the MNLF has not fully complied with the terms of the agreement, and the peace process remains fragile.

The president's office said that the meeting will be a key step in the peace process. It will allow the president to hear the MNLF's views on the current situation and to discuss ways to move forward.

The meeting is expected to be a significant event in the peace process. It will show the government's commitment to resolving the conflict and its willingness to listen to the MNLF's concerns.

Co-op group tests prepaid electricity plan in Baguio

MANILA (AP) — A group of cooperative members in Baguio City is testing a prepaid electricity plan. The plan allows members to pay for electricity in advance, similar to how mobile phone credits work.

The group, known as the Baguio Electric Cooperative, has been testing the plan for several months. They found that it was popular among members, especially those who wanted to avoid the hassle of paying bills and waiting for disconnection if they didn't pay.

The plan is expected to be implemented on a larger scale in the near future. It will allow other cooperatives in the region to offer similar services to their members.

PBA can live on a piece of Band-Aid

Sam Ezz

It was the last day of the PBA's annual convention in Las Vegas, and the atmosphere was one of quiet reflection. The players, who had spent the week in the company of their peers, were now looking towards the future. The PBA's financial situation was a topic of much discussion, and the players were aware of the challenges ahead. The PBA's revenue had been declining for some time, and the players were concerned about the long-term viability of the organization. The PBA's future was uncertain, and the players were looking for ways to ensure their own financial security.

So how does 'Sweeney Todd' fare on B.M?

By Joseph Tang

The musical 'Sweeney Todd' is a dark, gritty tale of revenge and madness. It tells the story of a barber who is driven insane by a vengeful spirit. The musical is a powerful and disturbing work of art.
